## 1. BFR & BFR-3 FRAME

### Inspiring Active Play

All BERG Frames, except the E-BF frame, are equipped with a unique BFR-system, incorporating a back pedal brake, together with forward and reverse pedaling. For maximum safety pedaling forward and reverse are automatic with no need for a lever or switch.

The BFR-system incorporates a freewheel. Which means that the pedals do not turn when the kart is moving and you stop pedaling. Resulting in a very safe ride.

Next to the BFR-system most themes are also suitable for a BFR-3 system. On every page in this brochure you can find if a BFR-3 system is also an option for that particular theme.

The BFR-3 system has all the benefits as the BFR hub. The advantage is that this system has 3 gears for optimal speed and comfort. The 2nd gear is equal to the "normal" forward motion of the BFR hub. The 1st is a little lighter and the 3rd a little heavier. With the BFR-3 system the go-kart is suitable for all terrains.

The ultimate quality go-kart!

## 5. SWING AXLE

### Inspiring Active Play

BERG Go-karts are designed to be suitable for all terrains. Smooth, bumpy, hard or soft ground. It's no problem for this ride-on!

Thanks to the swing axle all 4 wheels will stay in contact with the ground and this gives you optimal grip and control.
