1. BFR & BFR-3 FRAME

Inspiring Active Play

All BERG Frames, except the E-BF frame, are equipped with a unique BFR-system, incorporating a back pedal brake, together with forward and reverse pedaling. For maximum safety pedaling forward and reverse are automatic with no need for a lever or switch.

The BFR-system incorporates a freewheel. Which means that the pedals do not turn when the kart is moving and you stop pedaling. Resulting in a very safe ride.

Next to the BFR-system most themes are also suitable for a BFR-3 system. On every page in this brochure you can find if a BFR-3 system is also an option for that particular theme.

The BFR-3 system has all the benefits as the BFR hub. The advantage is that this system has 3 gears for optimal speed and comfort. The 2nd gear is equal to the "normal" forward motion of the BFR hub. The 1st is a little lighter and the 3rd a little heavier. With the BFR-3 system the go-kart is suitable for all terrains.

The ultimate quality go-kart!

5. SWING AXLE

Inspiring Active Play

BERG Go-karts are designed to be suitable for all terrains. Smooth, bumpy, hard or soft ground. It's no problem for this ride-on!

Thanks to the swing axle all 4 wheels will stay in contact with the ground and this gives you optimal grip and control.

3. XXL-FRAME

Inspiring Active Play

Did you know that in addition to the XL Frame we also have an XXL Frame? This frame is specially designed so that not only young and old can enjoy go-karting, but also taller people. This new go-kart has no less than 8 seat positions and is 10 cm longer. This means that young and old, small and tall can enjoy this go-kart. We have also reinforced the frame to make it even stronger. Naturally, this frame is also equipped with pneumatic tyres, BFR and swing axle. The XXL frame is available in combination with most standard theme packages. More information? Then click here!
